💼 WORK EXPERIENCE

INFINIT PLUS (04/04/2024 - 25/10/2024)
Software Development Intern

As a software development intern, I am part of a dynamic and collaborative team where I work under the guidance of experienced developers. My role allows me to actively participate in innovative projects, contributing to the design, development and implementation of solutions on the Odoo platform.

Key Responsibilities:

- Collaboration in the design, development and implementation of customized solutions in Odoo, adapted to the specific needs of the client.
- Configuration and customization of Odoo modules, improving functionality to maximize platform performance.
- Support in resolving technical problems and executing quality tests to guarantee the stability and efficiency of the implemented solutions.
- Continuous skill development in creating custom modules, views, reports and workflows within the Odoo ecosystem.
- Contribution to the maintenance and support of existing applications, ensuring their correct functioning and updating.
- Participation in training and professional development sessions, focused on improving my technical skills and in-depth knowledge of Odoo.

Skills and Knowledge:

- Knowledge of Python and web programming fundamentals.
- Strong interest in continuous learning and developing innovative solutions in Odoo.
- Ability to work efficiently in a team and adapt to supervisory environments.
- Excellent communication skills and a proactive approach to learning and improving.

- Active participation in innovative software development projects.
- Collaboration in the design and customization of modules in Odoo.
- Improvement of the functionality and performance of the Odoo platform.
- Maintenance and support of existing applications to ensure their efficiency.

THE CRAB'S CARBÓN Y LEÑA (2022)
Multifunctional, Waiter, Waiter, Cashier, Customer Service, Bartender, Kitchen Helper
Responsible for customer service through the service of waiter and waiter, bartender and kitchen assistant.

🎓 TRAINING

ESPE ARMED FORCES UNIVERSITY
Software Engineering (taken second semester)
Career focused on training professionals capable of developing and optimizing computer systems using advanced methodologies and international standards. Graduates acquire skills in software design, development and management, with a focus on efficiency, creativity and professional responsibility, thus contributing to economic development and competitiveness in productive sectors.

U.E. MADRE DE LA DIVINA GRACIA(2022)
Bachelor of the Republic of Ecuador (Unified General Baccalaureate)
Completion of the Unified General Baccalaureate, an educational program that provides comprehensive training in areas such as sciences, humanities and mathematics. During three years of study, academic and technical competencies, as well as problem-solving, teamwork and critical thinking skills, were developed, preparing me for higher education and the professional field.
